Product No.: 96001652

Submersible drainage pump type

Vertical single-stage stainless steel submersible pump with vertical discharge port and integrated submersible 3-phase totally enclosed motor in insulation class F. The pump is fitted with a suction strainer.

The impeller is a SEMI OPEN impeller for 12 mm free passage suitable for pumping groundwater, surface water, rain water and similar.

The pump has a double shaft seal and an intermediate oil chamber pre-filled with non-toxic special oil.

The pump has a riser pipe, a cooling jacket for continuous cooling of the motor by the pumped liquid and long-life deep-groove greased-for-life ball bearings.

The pump is ready for use as it is fitted with carrying handle and is supplied with a 10 m mains cable. The mains cable is of the plug type with glass sealing compound in the socket to prevent penetration of humidity into the stator windings.

Liquid:

Liquid temperature range: 0 .. 55 °C

Technical:

Type of impeller: SEMI OPEN Maximum particle size: 12 mm

Curve tolerance: ISO 9906 Annex A

Materials:

Pump housing: Stainless steel

1.4301 DIN W.-Nr.

304 AISI

Impeller: Stainless steel 1.4301 DIN W.-Nr.

304 AISI

Installation:

Pump outlet: Rp 1 1/2 Maximum installation depth: 10 m
